

HOW TO FILL OUT YOUR INDIVIDUAL DOG REGISTRATION APPLICATION

Your puppy's Individual Registration Application will need to be completed by you, the new owner, to be given a registration number and access to all ASCA programs and events.

Main Body Color and Sex are pre-printed on the form. Make sure you have the correct form.

READ THIS PORTION!!

Dog's Name – The breeder/kennel owner may have their kennel name written in (cannot be changed without a note from the breeder), so don't forget to add your part of the name. If the name goes over 30 characters, an additional \$20 fee is required.

Trim Color – A good place to look for trim color is on the feet/legs.

New owner(s) – Fill out your information here. Keep in mind that anyone listed here must be a member, so include fees for each person. If anyone listed is a full member, full member dog registration rates apply (50% off of what service members pay). If there are more than 2 owners, please fit everyone in as best as possible.

SIGN! – Everyone listed will need to sign. If there are many owners, please fit all signatures in as best as possible.

DNA: If you have PawPrint or Certagen DNA results, you would attach a copy so that we can record that info in your dog's file.

Eye Color: Common Colors: Brown, Blue, Amber, Hazel, Green or a combination of any two (e.g. Brown/Blue). They can also be Marbled. You may send a photo to registrar@asca.org if you are unsure of eye color.

Not for breeding: This box may be checked by the breeder. You cannot change this without a note from your breeder. This also may be removed at a later date using a Not For Breeding Release Form.

Registered Kennel: Kennel owners must sign in order to have their Kennel Name at the beginning or end of the dog's name. If it is signed, then you are required to use the name unless you have a note from the breeder stating otherwise.

EMAIL: Don't forget to include your email address, especially if you order an emailed pedigree. This also comes in handy if we need to contact you about your application.

ON REVERSE SIDE OF APPLICATION:
