ASCA Strategic Plan

2021

Mission Statement

The Australian Shepherd Club of America is dedicated to maintaining the integrity of its registry and to preserving and promoting the Australian Shepherd as an intelligent working dog with strong herding instinct.

Vision Statement

The Australian Shepherd Club of America will preserve the Australian Shepherd as an intelligent working dog of strong herding and guardian instincts.

Core Beliefs

- a. Altruism – Unselfish dedication to the success of the organization.
- b. Dignity and Respect – Maintaining one's self-worth while honoring the value of all.
- c. Fairness – Equitable, impartial treatment of all.
- d. Honesty – Representing oneself and the organization truthfully.
- e. Honor – Promote an atmosphere of good sportsmanship, volunteerism, and responsibility for the breed and the breed image to the public.
- f. Integrity – Acting in accordance with these Core Values.
- g. Loyalty – Allegiance to the members and the organization, even in the face of adversity.
- h. Pride – publicly sharing accomplishments with innovative programs show casing the breed and providing expanded opportunities for competition.
- i. Principles – Adhere to the highest standards for operation of all programs.
- j. Reputation – ASCA maintains a well-respected registry database that is both accurate and informative.

Guiding Principles

- a. Is it consistent with our core values?
- b. Is it legal and ethical?
- c. Does it promote the registry?
- d. Is it the right thing for ASCA?
- e. Is it within our policies?
- f. Can we take pride in it?

Committee Goals

Agility Committee

1. Online computer changes needed for agility (long term)
 - a. The ability for the computer system to be able to upload trial results and once done, a guide for trial secretaries will be created.
 - b. Streamline online sanctioning by moving the following fields to the EVENT INFO rather than the TRIAL INFO.
 - c. Possibly have an option in the TRIAL INFO to change the fields, if necessary.
2. Rule book updating
3. Judge's education
 - a. We will begin to work on a system that is visual to show how actions should be judged.
4. All Breed Invitational (long term cannot do until the computer system is updated)
 - a. We have developed a program that will show case those with all breeds and Aussies with QTracking numbers, as well as registered Aussies. Working with the Office on this.

Conformation Committee

1. Making the conformation finals self-sustainable
2. Updating rulebook and rules as needed
3. Creating Judge Education online or thru You Tube videos
4. Updating the conformation show books to make all the headers consistent

Dock Jumping Committee

This involves the distances in each division. The problem is the point schedule for the divisions. We feel that some of the dogs have the advantage to get more points than others due to the fact they have a bigger area for a 5 points. For example: A spring dog can get 5 points if they jump 9'-9'11". A deluxe dog can get 5 points if they jump 17'-17'5". That gives that spring dog an advantage because the space between is so much bigger. We will work on the point value for each division and the distance the jump to make the point values more even.

Hall of Fame Committee

Our objective for the HOF committee is to help recognize breeders/dogs and kennels with a program that will honor dogs and their accomplishments in programs that the ASCA membership and board has approved. We will work on and investigate all possibilities including polling the membership on their point of views and working earnestly to get new HOF programs to our membership.

History Committee

1. 2 articles for the Aussie Times
2. New application form for Lifetime Achievement Award Nominations
3. Review of the Australian Shepherd Wikipedia Page
4. Creation of a FB Page for ASCA History Committee for Member information (not for nominations)
5. Nomination and recommendation of a Lifetime Achievement Award Recipient for 2021

Junior Committee

1. Complete the new stockdog program and begin using it June 1, to be reviewed next year for any adjustments that need to be made on issues found once implemented
2. Start working on the agility program
3. Discuss and refine Junior Handling patterns

Legislative Committee

The Committee monitors legislative issues that could affect our members and formulates a response as needed.

Most Versatile Aussie Committee

1. Obtain BOD approval of the MVA/MJV new scoring system for this year's rulebook, June 2021
2. Give a presentation of the new scoring system at the 2021 Nationals
3. Seek out new committee members

Nationals Advisory Committee

1. Successful support of Nationals per the National Specialty rules.
2. National Specialty Rule Book:
 - a. Continue to update the rule book so that it reflects ASCA's current practice and supports the successful hosting of the National Specialty.
 - b. Create coordination between the National Specialty Rule Book with ASCA's competitive program rule books through the addition of references between the books that support the successful hosting of the National Specialty and the successful participation by members in the National Specialty.
3. Monitor the processes used in ASCA's hosting of the 2021 and 2022 Nationals to determine areas that need improvement.
 - a. Create an electronic application to be used in recruiting the 2023 Nationals Committee and add the Committee selection process as an appendix to the National Specialty Rule Book.

Obedience Committee

Goal 1: Provide quality programs to showcase the versatility & working ability of the Aussie.

Objective 1: Strategy 1 – Develop process to offer judge seminars.

- Determine what judges want to do for a judge's seminar at 2021 Nationals and create a program.
- Judge's seminar scheduled for 2021 Nationals.

Objective 1: Strategy 3 – Launch education program.

- Expand and revise judge's education Google classroom as needed.

Objective 3: Strategy 1 - Promote/educate public about current programs to increase participation.

- Promote virtual obedience program - Many other-breed exhibitors in obedience and rally don't want to go away for a weekend to do ASCA when there are a lot of AKC trials available in their backyard. The virtual program would help, but a lot of exhibitors are not aware of the program. The committee will explore ways to advertise the virtual obedience program.
- Promote participation by all breeds - The Obedience Committee would like to explore ways to encourage more participation by other breeds beyond the other breed OTCH list posted on the ASCA website. ASCA often depends on other breeds to make performance events profitable, so we would like to encourage their participation. We will look for ways to encourage clubs to offer a High in Trial Other Breed Award. We also want to find ways to reach out and promote our program to Aussie owners that do not currently compete in ASCA obedience.

Objective 3: Strategy 2 - Remain open to new and innovative program opportunities that would enhance choices for ASCA members.

- Increase Virtual Titling Options – Beginner Novice and Novice are currently available. Discuss the potential for taking the virtual program beyond Novice i.e., adding more regular and/or optional titling classes.
- Adding a Graduate Open title. Explore ways we can convince clubs to offer all optional titling classes. The vast majority of trials offer Beginner Novice, but not Graduate Novice or Versatility.

Objective 3: Strategy 5 - Committees to identify program priorities for the coming year.

1. Promote and expand virtual titling.
2. Review and update obedience judge's education Google classroom.
3. Update Judges test(s) with 2020 rules.

4. Investigate ways to increase the number of ASCA obedience judges, focusing on judges from other registries. We need to find a way to streamline the approval of judges from other registries. With our recent rule changes in both Novice and Open, these classes are more similar to the same classes in AKC.
5. Develop a Graduate Open optional titling class when the computer upgrade allows.

Rally Committee

Goal 1, Objective 1, Strategy 1 - Develop process to offer judge seminars. The Rally Committee has been conducting seminars at Nationals since 2011 except for one year. We will be conducting a seminar once again at the 2021 Nationals.

Goal 1, Objective 1, Strategy 3 - Launch education program. The Rally Committee has had a judges education program for quite a few years. It is updated as needed. A new judges education program will be launched to meet the Rally Rulebook requirement that all judges participate in judge's education in odd numbered years.

Goal 1, Objective 3, Strategy 1 - Promote/educate public about current programs to increase participation. This is an ongoing endeavor. The Rally program recently launched the Virtual Rally Program with a Virtual Novice Title. Soon after the launch, Virtual Advanced was added. Plans are to continue adding levels to the Virtual program. Making videos of correct performances for all ASCA Rally signs available to exhibitors, instructors, judges, etc. by the end of March 2021 will further the committee's efforts to meet this strategy.

Goal 1, Objective 3, Strategy 2 - Remain open to new and innovative program opportunities that would enhance choices for ASCA Members. Last year Rally added a pairs class to the rulebook as an optional class. It was offered for the first time at the 2019 Nationals. Hopefully this can eventually become an optional titling class. As with all programs, the ASCA computer situation will partially dictate when that can happen. Additionally, the Virtual Rally program and ongoing efforts to expand that program with more levels contributes to this strategy.

Scent Search Committee

Will be working on a virtual program and have a demonstration at 2021 Nationals.

Stockdog Committee

Judges' Education:

1. Develop a method of continued education for current Judges
2. Develop a method to educate or ensure that Apprentice Judges have the necessary skills to become successful ASCA Judges

Tracking Committee

We are working on a champion tracking program this year.
