MVA for ASC of AZ

We will be using scores from Saturday herding, Saturday Rally, Sunday Obedience and Saturday Conformation evaluation

CONFORMATION

- A. The MVA evaluator must be an ASCA breeder judge; a senior breeder judge is preferred but is not mandatory. An ASCA provisional breeder judge cannot be an MVA evaluator. The MVA Evaluator will be allowed to show prior or subsequent to the day of the MVA evaluation. Further, any dog(s) owned by the evaluator may compete in any and all venues, other than MVA, on the same day that the evaluations are performed, provided the handler is someone other than that evaluator. Members of the evaluator's immediate family may handle the dog. If the evaluator is judging other classes or venues in addition to the MVA evaluation at the cluster, the ASCA rules pertaining to that judging shall take precedence.
- B. One hundred points are available. The form and point schedule used will be provided to the evaluator.
- C. This class will not be placed and no awards will be given. The score given by the evaluator will be used.
- D. Only Australian Shepherds with full registration privileges will be allowed to compete in MVA. No LEP registered dogs will be allowed in MVA. This class is open to spayed and neutered animals as well as intact animals.

STOCKDOG

- A. The highest qualifying score from the Started, Open, Advanced or Post-Advanced will be used to compute MVA points. Highest score is defined as the score that will result in the highest number of MVA points.
- B. Additional qualifying scores will earn 5 points each.
- C. Points will be computed as follows:
 - Advanced and Post-Advanced = Score +6% of score
 - Open = Score
 - Started = Score
- D. Bitches in season entered in Versatility must be accommodated in the Stock Dog Trials.

Performance Score

The dog will receive one MVA score from the two performance categories of obedience and rally. The one qualifying score with the highest MVA point value will be used as the dog's base score. Any and all additional qualifying scores will be valued at 5 points each and added to the base score to get the dog's total performance score.

OBEDIENCE

- A. The highest qualifying score from a regular class will be used to compute MVA points. Highest score is defined as the score that will result in the highest number of MVA points.
- B. Points will be computed using a factor as follows:
 - Utility = Score plus 10 points
 - Open (CDX or ODX) = Score
 - Novice = Score minus 10 points
- C. Bitches in season entered in Versatility must be accommodated in the Obedience Trials. They will either run last, or in a special ring. Qualifying scores received will count for Versatility only.

RALLY

- A. The highest qualifying score from an A or B Novice, Advanced, Excellent or Masters class will be used to compute MVA points. Highest score is defined as the score that will result in the highest number of MVA points.
- Points will be computed as follows:
 - Masters = Score minus 5
 - Excellent = Score minus 10
 - Advanced = Score minus 20
 - Novice = Score minus 25

B. Bitches in season entered in Versatility must be accommodated in the Rally Trial and will run last at the end of the day. Qualifying scores received will count for Versatility only.
